Sainsbury's Energy

Want to save money, save energy and reduce your carbon footprint? Come and speak to one of our in-store advisers today and complete the **FREE Online Energy Adviser Survey** - we'll even give you **100 Nectar points** when it's done!

What is the Online Energy Adviser?

It's a **FREE** online energy survey which helps you work out how you use the energy in your home, what your energy costs you and the impact your energy use has on the environment. It will also provide you with recommendations on how you could cut your energy costs.

How does it work?

- You answer a few simple questions about your home energy use
- The Online Adviser calculates your energy efficiency rating - how much energy you use and how much it costs
- You get a **FREE** energy action plan showing you how to save energy, save money and reduce your carbon footprint
- We'll give you a unique login ID and password, allowing you to save your plan online and return to it anytime you like in the future, helping you to track your energy use and save even more money

Come and talk to one of our in-store advisers and complete our **FREE** Online Energy Adviser Survey for your 100 Nectar points*.
